

野木町総合運動公園

The diagram illustrates a sequence of 15 steps, each consisting of a red path and a black path. The paths are labeled with numbers 0, 1, 2, and 3. The red path is generally higher than the black path, and both paths end at the same point on the right. The steps are arranged in a vertical sequence, with the red path starting at the top and the black path starting at the bottom. The paths are connected by horizontal lines, and the numbers are placed at the junctions of the paths.
